Keywords:

time module, academic year, 5-unit

Background:

The Department of Mathematics and Statistics offers a popular and important 5-unit course, MAT 1070 – PreCalculus. This appears to be the only 5-unit Lecture course offered by any department.

MAT 1070 combines the material of MAT 1050 – College Algebra (3 units) and MAT 1060 – Trigonometry (3 units), saving the students 1 unit of coursework.

We have been offering sections of this course for several years and have seen demand for the course grow. In Fall 2024, we ran ten fully enrolled sections.

There are no official time modules for class meetings for a 5-unit course. There are also no official final exam times for a 5-unit course. Therefore, we propose the following time modules.

These modules provide the appropriate number of minutes of instruction per week (at least 250 minutes). In addition, these modules provide for efficient usage of classroom space.

| C-Classification | Units | Meetings per Week | Meeting Days | Time Modules |
|-------------------------|--------------|--------------------------|---------------------|---------------------|
| Lecture | 5 | 2 | M, W | 1:00 - 3:15 PM |
| Lecture | 5 | 2 | M, W | 3:30 - 5:45 PM |
| Lecture | 5 | 2 | M, W | 6:00 - 8:15 PM |
| Lecture | 5 | 2 | Tu, Th | 7:00 - 9:15 AM |
| Lecture | 5 | 2 | Tu, Th | 9:30 - 11:45 AM |
| Lecture | 5 | 2 | Tu, Th | 1:00 - 3:15 PM |
| Lecture | 5 | 2 | Tu, Th | 3:30 - 5:45 PM |
| Lecture | 5 | 2 | Tu, Th | 6:00 - 8:15 PM |
| Lecture | 5 | 3 | M, W, F | 8:15 - 9:40 AM |
| Lecture | 5 | 3 | M, W, F | 9:50 - 11:15 AM |
| Lecture | 5 | 3 | M, W, F | 11:25 AM - 12:50 PM |

In addition, we propose the following final exam schedule for these modules. This final exam schedule will not cause any scheduling conflicts with existing approved time modules.

| Meeting Days | Time Modules | Final Exam Day | Final Exam Time |
|---------------------|---------------------|-----------------------|------------------------|
| M, W | 1:00 - 3:15 PM | Monday | 1:00 - 2:50 PM |
