

**ACADEMIC SENATE
OF
THE CALIFORNIA STATE UNIVERSITY**

AS-3592-23/FA (Rev)
January 19-20, 2023

COMPENSATION FOR AB 928 IMPLEMENTATION

- RESOLVED:** That the Academic Senate of the California State University (ASCSU) reassert that the curriculum remains in the purview of the faculty; and be it further
- RESOLVED:** That the Academic Senate of the California State University (ASCSU) reaffirm that it is the purview of the faculty of the California State University (CSU), California Community Colleges (CCC), and University of California (UC) to engage in the primary work of establishing curricula to meet the requirements of [California Assembly Bill 928](#) (AB 928); and be it further
- RESOLVED:** That the ASCSU recognize that many hundreds of hours above and beyond the faculty's normal service work and staff time have already gone into developing, reviewing, and approving the California General Education Transfer Curriculum (Cal-GETC) framework; and that many hundreds more are likely to be accrued in the coming months on establishing criteria as well as reviewing and approving courses that meet Cal-GETC requirements through Course Identification Numbering System (C-ID) review¹ and on revising Associate Degree for Transfer (ADT) agreements, and thereby drawing faculty resources away from normal, necessary activities; and be it further
- RESOLVED:** That the ASCSU call on the California State University Chancellor's Office and CSU campuses to document the cumulative time being spent in support of activities required by AB 928, including but not limited to:
- Department, college, and university meetings dedicated to decision-making associated with reviewing and debating Cal-GETC.
 - Campus-based information sessions provided about the requirements of AB 928, Cal-GETC, and ongoing campus efforts to meet those requirements.
 - Shared-governance feedback processes and decision-making related to AB 928 and Cal-GETC.
 - Any other dedicated AB 928 activities that may arise as a result of the ongoing process to meet AB 928 requirements, including Cal-GETC efforts in Intersegmental Committee of Academic Senates (ICAS) and campus leaders as well as ADT revision, in the mandated timeline of the law
- ; and be it further

¹ Building on the earlier call for increased support for C-ID review made in [AS-3541-22/APEP](#) (rev).

RESOLVED: That the ASCSU urge the CSU to provide appropriate compensation in the forms of reassigned time and/or stipends for this additional workload; and be it further

RESOLVED: That the ASCSU distribute this resolution to the CSU Board of Trustees, CSU Chancellor, CSU campus Presidents, CSU campus Senate Chairs, CSU campus Senate Executive Committees, CSU campus Curriculum Committees, CSU Provosts/Vice Presidents of Academic Affairs, California Faculty Association (CFA), California State Student Association (CSSA), and the CSU Emeritus and Retired Faculty & Staff Association (CSU-ERFSA).

***RATIONALE:** California AB 928 requires the CSU system to work with the University of California (UC) and California Community College (CCC) systems to create a singular lower-division transfer general education pathway for community college students transferring to either a CSU or a UC (now known as Cal-GETC). As part of this effort, substantial work was focused particularly on the Oral Communications requirement and the process by which such courses will be approved within the Cal-GETC framework (as one example of many). In addition, the law mandates revisions to existing and development of new Associate Degree for Transfer (ADT) model curricula. The AB 928 mandate has already constituted significant workload across all CSU campuses in providing education about the requirements of AB 928 and in subsequent review, research, feedback, and deliberation regarding the Cal-GETC proposal for curricular changes. Future work on ADT model curricula and messaging is likely to dwarf the workload of Cal-GETC revision thus far on our 23 campuses. Faculty who significantly participate in the work of curricular revision in order to meet the mandates of AB 928 should be compensated for their additional workload.*

Approved – March 16-17, 2023
