

California State Polytechnic University, Pomona

Academic Senate Report

AS-3160-256-AP

Program Review for BS and MS Economics

Academic Senate Action:

Adopted:	March 18, 2026
----------	----------------

Final Disposition:

Transmitted to President:	March 20, 2026
---------------------------	----------------

RECOMMENDATION:

The Academic Senate commends the Economics department for its student and career focused programs and concurs that additional hires would be a great help in ameliorating current challenges to course offerings. They agree that the integration of modern technologies, as proposed by the department and supported by the Dean, and the investigation of collaborations with other departments and the possible creation of a 4+1 program are creative ways to strengthen the department.
