**SUBJECT:** Response to Senate Report AS-3032-223-AP: Double Majoring Policy Update

---

The Academic Senate recommended the approval of updating Policy 1444 to increase the number of double majoring units to 36 units about the primary major. The secondary major (option) must be completed with unique coursework where double-counting with the primary major (option) is limited. The limitation on double counting is based on the secondary degree.

I thank the Academic Programs Committee and the Academic Senate for their recommendation. I support Provost Brown, the Academic Senate, and the Office of Academic Programs to approve the Double Majoring Policy, and request that this report to be officially recorded.
