Subject: AS-2377-011/FA POLICY ON ADJUNCT FACULTY

I approve the recommendation that the title of Adjunct Faculty may be used to identify any faculty member or industry professional with a current letter of appointment from the University who is engaged in research or teaching in an academic department, and who is not permanently employed by the university.

I thank the Senate for their efforts and ask that the Office of Faculty Affairs implement the changes identified and add this policy to the Academic Affairs University Manual web site.

Senate Recommendation

A specific policy on award of adjunct faculty/professor title will be unique to Cal Poly Pomona and will not distinguish the appointee within the CSU system and the academy. The Academic Senate recommends that the title of Adjunct Faculty may be used to identify any faculty member or industry professional with a current letter of appointment from the University who is engaged in research or teaching in an academic department, and are not in permanent employment of the university.
